Nazi secrets are weird enough. It is therefore unnecessary to add more fantasies to the genuine historical facts in the field of Nazi occultism, especially when it comes to their expeditions and their pseudo-scientific researches.

The true amateur of sensational and strange stories can still be fully satisfied with Himmler's Witch Project, or the Hollow Earth Theory.

In many aspects, the Nazi era was like a breach in space and time. What happened during these almost 12 years of dictatorship, at the heart of Europe in one of the most civilized and industrially advanced countries, does not match the moral, philosophical and religious values that prevailed everywhere else at the same time in the world. There is therefore a need to revisit all historical facts linked to Nazi "oddities" that one rarely finds in mainstream historians' books.

This book aims at separating these facts, however esoteric and strange they can be, from post-war fabrications and commercial lies. The amateur of mysteries and dark secrets will not be disappointed, though, since in this quest reality is often stranger than fiction.
