In the horse world, your success is determined by how well you can control, understand and harmonize with a 1,000-pound animal that has superior strength, is faster and has a better-developed nervous system than you. The way you overcome these strengths in a horse is to understand what the horse's limitations are.

Understanding the horse's body, what makes him tick and how the horse's brain works is the key to controlling him. If you don't figure this out and understand the horse then you'll constantly be fighting him and your experience will go sour.
