After the most vicious villain attack in centuries, Maci Knight is struggling to put the shattered pieces of her life back together. She survived, but barely, and her family will never be the same. The only good thing to come out of the attack is that the Elders have granted her probationary Hero status. Now she's desperate to prove that she has what it takes to shine in the field.

Maci gets her first chance when she's called in to stop an illegal fighting ring where humans are battling to the death. But when she goes toe-to-toe with the fighters, she's shocked to discover that even *she* can't contain them. The humans are strong—supernaturally so. Maci knows that this is the work of the villain underground and is determined to put an end to it. But how do you fight an enemy who won't show their face?

In the second installment of the City of Legends trilogy, Maci Knight will find out what she's truly made of.

*This is a new edition of the previously self-published novel Overpowered.*
