## Conflict, Citizenship and Civil Society (Routledge/European Sociological Association Studies in European Societies)

This book provides readers – students, researchers, academics, policy-makers, activists and interested non-specialists – with a sophisticated understanding of contemporary discussion, analysis and theorizing of issues pertaining to conflict, citizenship and civil society. It does so through thirteen pieces of most recent in-depth sociological research that delve on: challenges to citizenship, civil society and citizenship in early and late modernity, the reflexive imperative in transformations of civil society, social conflict challenges to social science approaches, methodology and explanatory power, gender, minorities-immigrants-refugees and the extension of citizenship, violence in modernity, the place of civil society for sociology, and postcolonialism, trauma, and civil society.
