The Fifth Vial: From Boston, a disgraced medical student travels to South America to deliver a research paper that could save her career and becomes a victim of an unspeakable crime...Thousands of miles away, a brilliant, reclusive scientist is on the verge of perfecting a serum that could save millions of lives, and bring others inestimable wealth....In Chicago, a disillusioned private detective, on the way to his third career, is hired to determine the identity of a John Doe, killed on a Florida highway, with mysterious marks on his body. Three lives linked forever by a single vial of blood - the fifth vial. The First Patient: It is not until he is ensconced in the White House medical office that Gabe Singleton realizes there is strong evidence that the President is going insane. Facing a crisis of conscience - as President Stoddard's physician, he has the power to invoke the Twenty-fifth Amendment to transfer presidential power to the Vice President - Gabe uncovers increasing evidence that his friend's condition may not be due to natural causes. The President's life is at stake. A small-town doctor suddenly finds himself in the most powerful position on earth, and the safety of the world is in jeopardy. The Second Opinion: Michael Palmer has created a cat-and-mouse game where one woman must confront a conspiracy of doctors to uncover an evil practice that touches every single person who ever has a medical test. With unforgettable characters and twists and betrayals that come from the most unlikely places, The Second Opinion will keep you guessing...and looking over your shoulder.
