This book is an instructional for men on how to win the favor of women, in a way that satisfies both sexes.

If you're a woman, it would help to read this book to gain some insight into how men think about women.

If you're a man, reading this book will give you valuable insight into women and how to calibrate your senses to better detect their signals.

With this book I hope to make both men and women happier by helping men understand what females need to grow in a relationship, as well as what pushes them away. This will help your relationships develop fruitfully. Although it is written towards males, once in a while I maintain a neutral gender position so that the women who are reading this can more easily identify with the facts I am pointing out on their behalf.

This book was written to share my perspective on how to treat women. I like to treat my girlfriends as if they are heaven-sent, and I hope this book inspires the same thoughts and feelings in you as well.
