## **Genius** Steven T. Seagle

Ted Marx works hard at his career as a quantum physicist. But lately the demands of his job have begun to overwhelm him. Then Ted makes a startling discovery: his wife's father once knew Einstein and claims that Einstein entrusted to him a final, devastating secret—a secret even more profound and shattering than the work that led to the first atom bombs. If Ted can convince his father-in-law to tell him what Einstein had to say, his job will be safe. But does he dare reveal Einstein's most dangerous secret to those who might exploit it?

In their comic book *Genius*, acclaimed duo Teddy H. Kristiansen and Steven T. Seagle have created an exploration of the heights of intellectual and scientific achievement and the depths of human emotion and confusion.
