## **Practice Your Spanish! #4: Reading and translation practice for people learning Spanish (Spanish Practice)** Sam Fuentes

This book is not for beginners. It is for those already learning Spanish who want to **improve their Spanish language skills**. The idea is simple: lots of bilingual texts (Spanish-English) to practice reading comprehension and develop vocabulary, plus exercises to translate single sentences from English into Spanish.

Everything is in Spanish and English, so exercises are **useful to readers of different levels of ability in Spanish**. However, the book is aimed primarily at **high school and college students of Spanish**, those preparing for **Spanish SATs**, or anyone else who has already acquired a working knowledge of the language.

There are five units in the book, each one offering a mixture of single sentences and longer texts. Every example of Spanish is followed (usually on the next page) by a translation into English. This allows readers to 'click' through as much material as they want, even if it's just a sentence or two at a time. Unit Three is devoted entirely to one very long text, and includes comprehension questions.

This book is not a textbook and **contains no grammar exercises!** It is an additional resource to help learners of Spanish improve their language skills. However, the texts themselves contain **a wide variety of grammatical structures, tenses, and set expressions in Spanish**. The **vocabulary is also rich and varied**. But don't worry if you don't understand everything--a full translation into English is just one click away!

**A note on the translations.** We have tried to provide useful, straightforward translations of all material in this book. But remember that there are potentially many different ways of translating any sentence.
