## **Urban Maps** Richard Brook, Nick Dunn

This book concerns the city and the 'devices' that define the urban environment by their presence, representation or interpretation. The texts offer an interdisciplinary discourse and critique of the complex systems, artifacts, interventions and evidences that can inform our understanding of urban territories; on surfaces, in the margins or within voids. The diverse media of arts practices as well as commercial branding are used to explore narratives that reveal latent characteristics of urban situations that conventional architectural inquiry is unable to do.
