Judaism Discovered: A Study of the Anti-Biblical Religion of Racism, Self-Worship, Superstition and Deceit Michael Hoffman

This is a description of the hardcover edition

Judaism Discovered represents painstaking research based on rigorous examination of all available exegetical sources. Deconstructing the rabbinic texts line by line, Michael Hoffman has discovered a terra incognita: Orthodox Judaism as the ideological survival of the most ossified traditions of Babylonian paganism, concealed beneath a complex system of dissimulation and misdirection. His unsparing thesis is a radical challenge to Judaism's claims to Biblical provenance and probity.

Hoffman brings to this difficult task...a commitment to long years of personal study and research that will commend this work to all serious readers...I have found his scholarship to be a highly accurate reflection of both the spirit and the content of Talmudic writings... Robert Countess, PhD., Professor Emeritus of New Testament, Tennessee State University
