Every word has an example sentence selected from the twelve most studied plays including *Macbeth*, *Hamlet*, *Romeo and Juliet*, *A Midsummer Night's Dream*, and *Henry V*. Usage notes and theatre notes provide additional background to Shakespearean times and the performance of his plays.

Further support is provided by language panels on select topics like the *humors*, *swearing*, and *stage directions*, and full-color illustrated thematic spreads on special feature topics from *clothes* and *armor* to *music* and *recreation*. The dictionary is easy to use with its clear signposting, accessible design, and expertly levelled contemporary look and feel. It is the perfect support for a better understanding of Shakespeare, created by renowned authors Professor David Crystal and actor Ben Crystal, a father and son team who combine for the first time the academic and the theatre, bringing together language, literature, and lexicography in this unique Shakespeare dictionary of global appeal.
