Responsive & Fast: Implementing High-Performance Responsive Design Guy Podjarny

Is Responsive Web Design (RWD) slowing your site down? It doesn't have to. With this concise book, you'll learn practical techniques for improving performance with RWD, including a default set of guidelines you can use as an easy starting point. Web performance researcher and evangelist Guy Podjarny walks you through several existing solutions for dealing with RWD performance problems, and offers advice for choosing optimizations that will be most useful for your needs.

RWD performance problems stem from excessive downloads of resources, including images, JavaScript and CSS, and HTML—downloads designed to let your web application adapt to different screen sizes. Podjarny presents a series of increasingly larger-scope solutions to each issue, including client-side techniques and RESS (Responsive + Server Side Components).

- Address performance issues by starting with Podjarny's default guidelines
- Use a JavaScript image loader and an image transcoding service to create Responsive Images
- Reduce JavaScript and CSS downloads with asynchronous scripts, conditional loading, and multi-viewpoint CSS
- Prioritize resources to avoid excess content in RWD and defer the load of any content that's not critical
- Explore server-side Adaptive Delivery and RESS solutions as an alternative to "pure" RWD

Guy Podjarny, or Guypo for short, is the Chief Technology Officer (CTO) of Akamai's Web Experience business unit.

From reader reviews:

Valerie Hemming:

As people who live in the modest era should be update about what going on or information even knowledge to make these people keep up with the era that is certainly always change and move forward. Some of you maybe will update themselves by examining books. It is a good choice to suit your needs but the problems coming to a person is you don't know what one you should start with. This Responsive & Fast: Implementing High-Performance Responsive Design is our recommendation so you keep up with the world. Why, since this book serves what you want and need in this era.

Peggy Witzel:

Reading a guide can be one of a lot of pastime that everyone in the world loves. Do you like reading book and so. There are a lot of reasons why people like it. First reading a reserve will give you a lot of new information. When you read a guide you will get new information since book is one of several ways to share the information or perhaps their idea. Second, examining a book will make you more imaginative. When you examining a book especially fictional book the author will bring one to imagine the story how the figures do it anything. Third, you can share your knowledge to other people. When you read this Responsive & Fast: Implementing High-Performance Responsive Design, you are able to tells your family, friends as well as soon about yours book. Your knowledge can inspire the mediocre, make them reading a reserve.

Maureen Bonds:

This Responsive & Fast: Implementing High-Performance Responsive Design is great e-book for you because the content that is full of information for you who always deal with world and still have to make decision every minute. This specific book reveal it info accurately using great manage word or we can state no rambling sentences within it. So if you are read this hurriedly you can have whole info in it. Doesn't mean it only offers you straight forward sentences but tricky core information with wonderful delivering sentences. Having Responsive & Fast: Implementing High-Performance Responsive Design in your hand like keeping the world in your arm, details in it is not ridiculous just one. We can say that no guide that offer you world inside ten or fifteen moment right but this guide already do that. So , this is good reading book. Hey there Mr. and Mrs. busy do you still doubt that will?

Sheila Rivera:

As a university student exactly feel bored in order to reading. If their teacher inquired them to go to the library or make summary for some publication, they are complained. Just minor students that has reading's internal or real their passion. They just do what the teacher want, like asked to the library. They go to at this time there but nothing reading seriously. Any students feel that looking at is not important, boring and also can't see colorful photos on there. Yeah, it is being complicated. Book is very important in your case. As we know that on this age, many ways to get whatever we really wish for. Likewise word says, many ways to

reach Chinese's country. So , this Responsive & Fast: Implementing High-Performance Responsive Design can make you really feel more interested to read.
